

U.S. FOREST OFFSET PROJECT DATA REPORT ANNUAL REPORTING PERIOD – ALL PROJECT TYPES

OPR Staff Use Only	Date Report Received:	OPR Tracking Number:	Date Report Reviewed:	OPR Staff Use Only
---------------------------	------------------------------	-----------------------------	------------------------------	---------------------------

Complete for all reporting years. Entities submitting the project's first Offset Project Data Report must submit the information requested in both **Initial Reporting Period** and the **Annual Reporting** forms to the appropriate Offset Project Registry. For every reporting period thereafter, submit only the information requested in the Annual Reporting Period form.

PART I. ENTITY SUBMITTING REPORT

Is this form being submitted by the Offset Project Operator (OPO) or by the Authorized Project Designee (APD)? Note: The person completing this form should be an OPO/APD employee.				☐ OPO ☒ APD
Date Report Completed: January 15, 2016	Person Completing Report: Brian Shillinglaw	Phone Number: 415-321-3305	Email Address: bshillinglaw [at] newforests-us.com	

PART II. OFFSET PROJECT INFORMATION

Offset Project Name: Trinity Timberlands University Hill Improved Forest Management Project			
OPR Project ID#: CAR1046	ARB Project ID# (if known): CAFR5076	Offset Project Commencement Date: 11/18/2013	
Date of Last Full (On-Site) Verification: 10/22/2014	Reporting Period Start Date: 9/19/2014	Reporting Period End Date: 9/18/2015	
Is this report being submitted for a verification year?			☐ Yes ☒ No
Protocol Version for Project Listing: ☒ October 20, 2011 ☐ November 14, 2014		Protocol Version for Project Reporting: ☒ October 20, 2011 ☐ November 14, 2014	
Is this Offset Project Data Report (OPDR) being submitted for the project's initial Reporting Period? If "yes", the entity submitting this report must also submit the information required in section 9.1.1 of the U.S. Forest protocol. To submit that information, an OPO/APD submitting an OPDR may use one of three Initial Reporting Forms identified in the question immediately below.			☐ Yes ☒ No
With this Annual OPDR, is any one of the following three U.S. Forest Offset Project Data Report Initial Reporting Period forms also being submitted?		☐ Reforestation ☐ Improved Forest Management ☐ Avoided Conversion	

PART III. OPO/APD INFORMATION

A. OPO			
OPO Name: Trinity Timberlands LLC		OPO's CITSS ID#: CA 1 6 9 6	
Mailing Address: 3555 Timmons Lane, Suite 800	City: Houston	State: TX	Zip: 77027
Contact Person: Glenda Overbeck	Phone Number: 713-961-1600	Email Address: goverbeck [at] timmonsadvisors.com	
B. APD (if applicable)			☐ No APD/Not Applicable
APD Name: Forest Carbon Partners, L.P.		APD's CITSS ID#: CA 1 4 0 3	
Mailing Address: 275 Battery Street, Suite 510	City: San Francisco	State: CA	Zip: 94111

Contact Person: Brian Shillinglaw	Phone Number: 415-321-3305	Email Address: bshillinglaw [at] newforests-us.com
---	--------------------------------------	--

PART IV. OFFSET PROJECT ELIGIBILITY REQUIREMENTS		
A. Have the Forest Project and associated Project Lands met and been in compliance with all local, state, and federal regulatory requirements during the Reporting Period?		☒ Yes ☐ No
If no, provide an explanation of the non-compliance.		
B. Indicate how the offset project meets the definition of Natural Forest Management per Table 3.2 in the U.S. Forest protocol by completing Questions B1-B4 below: <i>Note: Reforestation projects with deferred inventory and Project Boundaries are still required to complete Questions B1-B4.</i>		
1. Native species: a) Does the project consist of at least 95% native species based on the estimated sum of carbon in the standing live carbon pool? <i>If "no," proceed to question 1b. Otherwise, skip to question B2.</i>		☒ Yes ☐ No
b) Describe how the project will result in achieving a 95% native species goal over the project life.		
2. Composition of native species: a) Does the Project Area naturally consist of a mixed species distribution such that no single species' prevalence exceeds the percentage value of standing live carbon shown under the heading 'Species Diversity Index' in the Assessment Area Data File? <i>If "no," proceed to questions 2b and 2c. Otherwise skip to question B3.</i>		☒ Yes ☐ No
b) Explain how the project will demonstrate a trend toward achieving the Species Diversity Index of native species and meet this requirement within 25 years.		
c) If the Project Area does not naturally consist of a mixed species distribution: Will or have you provided a written statement from the government agency in charge of forestry regulation in the state where the project is located stipulating that the Project site is not capable of meeting the requirement of mixed species distribution.		☐ Yes ☐ No
3. Distribution of age classes/sustainable management: a) Indicate how the project meets the requirement for sustainable management if regeneration or commercial harvesting is either planned or initiated within the Project Area demonstrating sustainable long-term harvesting practices. This applies to all forest landholdings of the Forest Owner(s) (check one of the boxes). <i>The full text associated for the options below is found in section 3.8.1 of the U.S. Forest protocol.</i>		
☒ Third party certification ☐ Adhere to a renewable long-term management plan ☐ Employs uneven-aged silvicultural practices & maintain canopy retention averaging 40% across forest ☐ Not applicable, no commercial harvesting in planned within the project area		
b) On a watershed scale up to 10,000 acres (or the Project Area, whichever is smaller), projects must maintain, or make progress toward maintaining, a maximum of 40% of the project's forest lands in ages that are less than 20 years old. (Areas impacted by Significant Disturbance are exempt from this test until 20 years after reforestation of such areas.) Does the acreage within this project meet this requirement? <i>If "no," proceed to question 3c. Otherwise, skip to question B4.</i>		☒ Yes ☐ No
Explain how the project demonstrates continuous progress toward meeting this requirement within the next 25 years.		
4. Structural elements (standing and lying dead wood): How does the project ensure that structural elements are retained in sufficient quantities throughout the project life? The project will ensure that structural elements are retained in sufficient quantities by allowing natural background mortality and recruitment of standing dead wood to occur within the project area (other than that occurring as the result of significant natural disturbance).		
C. Has there been a decrease in the standing live carbon stocks within the Project Area over any 10-year consecutive period? <i>For the Initial Reporting Period, check "No." If "No," skip to Part V. If yes, answer questions C1 and C2.</i>		☐ Yes ☒ No
1. If yes, identify the appropriate option and provide additional documentation. ☐ Decrease is due to the necessity to substantially improve the Project Area's resistance to wildfire, insect, or disease risks. Actions that will be taken to reduce the risks must be documented and the techniques used to improve resistance must be supported by relevant published peer reviewed		

research.

☐ Decrease is associated with a planned balancing of age classes and is detailed in a long-term management plan that demonstrates harvest levels can be permanently sustained over time and that is sanctioned and monitored by a state or federal agency. This documentation must be submitted at the time of the Project's Listing.

☐ Decrease is part of normal silviculture cycles for forest ownerships less than 1,000 acres.

Note: Documentation is required to be submitted. See Section X for details.

2. Has the Project's inventory of standing live carbon stocks fallen below the Project's baseline standing live carbon stocks, or 20 percent less than the Project's standing live carbon stocks at the project's initiation (whichever is higher)?

☐ Yes
☐ No

PART V. PROJECT CHANGES

- A. Is all the information in the offset project listing still accurate?

If "Yes," skip to question B.

☐ Yes
☒ No

1. Does Part II above report an updated Offset Project Commencement Date, Reporting Period Start Date, and/or Reporting Period End Date?

☒ Yes
☐ No

2. Does Part III above report updated OPO/APD Information?

☒ Yes
☐ No

3. Are there updates to the Land Ownership listing information?

If "Yes," provide updates below (and/or provide as separate attachment):

The entirety of the project area is still owned in fee by Trinity Timberlands LLC; however, see Part V.B. below for land sales outside of the project area.

☒ Yes
☐ No

4. Are there updates to the Offset Project Area listing information?

If "Yes," provide updates below (and/or provide as separate attachment):

New configuration of project area since listing; acreage changed from 11,902 to 11,350 acres but has not changed since the last reporting period.

☒ Yes
☐ No

5. Are there updates to the Carbon Stock Inventory listing information?

If "Yes," provide updates below (and/or provide as separate attachment):

Standing dead carbon stocks were unknown at time of listing but were quantified from inventory data as reported in the initial OPDR; standing live carbon stocks also changed as a result of inventory data acquired since listing.

☒ Yes
☐ No

6. Are there updates to the Offset Project Baseline listing information?

If "Yes," provide updates below (and/or provide as separate attachment):

Yes, the baseline was updated since listing based on new inventory data, growth and yield modeling, and harvested wood product calculations but has not changed since the last reporting period.

☒ Yes
☐ No

7. Are there any other updates to the listing information?

If "Yes," provide updates below (and/or provide as separate attachment):

The summary of forest conditions changed from listing because the listing information was based on older data provided by the previous owner and was then revised based on new inventory data; the confidence deduction changed from listing for the same reason.

☒ Yes
☐ No

- B. Have there been any changes in the status of the Forest Owner including, if applicable per Section 3.8.1 of the U.S. Forest protocol, the acquisition of new forest landholdings?

☒ Yes
☐ No

If yes, describe the changes. Include the sale or transfer of any portion of land within Project Area.

5 parcels in Humboldt county and 1 parcel in Trinity county, together comprising 800 acres have been sold. All of these parcels were outside of the project area.

- C. **Optional:** Has a Qualified Conservation Easement (QCE) been recorded since the previous Reporting Period?

If this is for the Initial Reporting Period, check "Yes" if a QCE has been recorded since Listing, check "No" otherwise. If "No," skip to Question D.

☐ Yes
☐ No

Optional: If yes, provide the date the QCE was recorded. Also provide a copy of the QCE to ARB.

- D. **Optional:** Have there been any modifications to the inventory methodology of any carbon pools included in the project's boundary since the last Reporting Period?

All projects are required to document any modifications to inventory methodologies in a change log and obtain approval in advance. Qualifying Reforestation Projects may defer answering this question until the second full verification. If this is for the Initial Reporting Period, check "No," unless there have been modifications since project listing, in which case, check "Yes."

☐ Yes
☐ No
☐ Defer

Optional: If yes, describe the modifications.

PART VI. REVERSALS

Note: Qualifying Reforestation Projects may defer items marked with an asterisk until the second verification.

A. Has a reversal occurred during the Reporting Period covered by this report?

If this is for the Initial Reporting Period, check "No."

If "No," skip to question B.

☒ **Yes**
☐ **No**

Has the reversal been classified as intentional or unintentional?

☐ **Intentional**
☒ **Unintentional**

Optional: Date(s) Reversal Occurred:

The wildfire started on July 30, 2015 and continued until November 23, 2015 when the fire was determined to be controlled.

Optional: Estimated Quantity of Reversal in Units of MtCO₂e:

The preliminary estimate of the reversal is 585,561 MTCO₂e. This estimate does not yet include the carbon transferred to wood products as a result of salvage harvest because delivered harvest volumes were not reported by the mill until after the end of the reporting period. Including the calculation of HWPs would reduce the magnitude of the reversal.

Describe and explain the reversal.

The reversal was caused by a lightning-initiated wildfire (part of the Route Complex) which started on July 30, 2015 and was determined to be controlled on November 23, 2015. The complex burned 35,675 acres, most of which was on public land; however, more than half of the Trinity Timberlands project area (~6,352 acres) also burned in the fire. Approximately 350 inventory plots within the fire perimeter are being re-measured in order to quantify the effect of the reversal; however, since this assessment is still ongoing, only a preliminary estimate is available at this time. As such, we do not yet know for certain whether the project's inventory of standing live carbon stocks has fallen below the baseline standing live carbon stocks or 20% less than the initial standing live carbon stocks (Part IV.C.2 above). Under the regulation, OPOs/APDs have a year from the date of discovery of the reversal to deliver a verified estimate of the reversal to ARB.

What is the status of the compensation for the reversal?

Pending

B. For verification years ONLY: Has a reversal occurred during the previous six years?

If this is for the Initial Reporting Period, check "No."

☐ **Yes**
☐ **No**

Has the reversal been classified as intentional or unintentional?

☐ **Intentional**
☐ **Unintentional**

Optional: Date(s) Reversal Occurred:

Optional: Estimated Quantity of Reversal in Units of MtCO₂e:

Describe and explain the reversal.

What is the status of the compensation for the reversal?

C. What is the Project's reversal risk rating?

Risk Rating:

19.2%

☐ **Defer**

What is the Project's fire risk based on level of fuel treatments?

☐ **High (2%)**
☐ **Medium (2.652%)**
☐ **Low (3.304%)**
☒ **None (4 %)**

PART VII. HARVEST VOLUMES AND CARBON IN WOOD PRODUCTS

Note: Qualifying Reforestation Projects may defer items marked with an asterisk until the second verification.

A. *Provide an estimate of the harvest volume for this Reporting Period.

This estimate refers to the volume of trees harvested for wood products only.

Harvest Volume (lbs):

0

☐ **Defer**

B. *Indicate the estimated mill efficiency for wood products produced from the Project Area following requirements in Appendix C, Section C.2.	Mill Efficiency (percent): 65%	☐ Defer
C. *Provide an estimate of carbon in harvested wood products associated with the harvest volumes reported for this Reporting Period.	Carbon estimate (MtCO₂e): 0	☐ Defer

PART VIII. CARBON STOCKS

In the appropriate columns below, enter the name/identification of all required carbon pools and its estimated carbon stock (MtCO₂e) for the current Reporting Period.

For verification years ONLY: Report the estimated carbon stock for every year since the Project's last verification.

☐ Defer

Reforestation Projects may defer full inventory of carbon stocks not affected by site preparation until second verification. If deferring, carbon stocks affected by site preparation must still be reported below.

Carbon Pool <i>Identify the pool by the SSR code (e.g., AC-1) and description (Standing live carbon) in Tables 5.1-5.3.</i>	Current Reporting Period 9/19/2014 to 9/18/2015	Current Reporting Period minus 1 year / to /	Current Reporting Period minus 2 years / to /	Current Reporting Period minus 3 years / to /	Current Reporting Period minus 4 years / to /	Current Reporting Period minus 5 years / to /
IFM-1 Standing live carbon	1,710,910					
FM-3 Standing dead carbon	83,029					
IFM-7 Carbon in in-use forest products	0					
IFM-8 Forest product carbon in landfills	0					

PART IX. BASELINE CARBON STOCKS

In the appropriate columns below, enter the name/identification of all required carbon pools and its estimated **baseline** carbon stock (MtCO₂e) for the current Reporting Period.

For verification years ONLY: Report the estimated baseline carbon stock for every year since the Project's last verification.

☐ **Defer**

Reforestation Projects may defer estimating baseline carbon stocks not affected by site preparation until a full inventory is obtained. If deferring, baseline estimates of carbon stock affected by site preparation must still be reported below.

Carbon Pool <i>Identify the pool by the SSR code (e.g., AC-1) and description (Standing live carbon) in Tables 5.1-5.3.</i>	Current Reporting Period	Current Reporting Period minus 1 year	Current Reporting Period minus 2 years	Current Reporting Period minus 3 years	Current Reporting Period minus 4 years	Current Reporting Period minus 5 years
	9/19/2014 to 9/18/2015	/ to /	/ to /	/ to /	/ to /	/ to /
IFM-1 Standing live carbon	1,372,414					
FM-3 Standing dead carbon	111,719					
IFM-7 Carbon in in-use forest products	9,525					
IFM-8 Forest product carbon in landfills	6,018					

PART X. QUANTIFICATION FACTORS

In the appropriate column below, enter the value for the current Reporting Period.

For verification years ONLY: Report the estimated values for every year since the Project's last verification.

Note: Qualifying Reforestation Projects may defer items marked with an asterisk until the second verification.

	Current Reporting Period	Current Reporting Period minus 1 year	Current Reporting Period minus 2 years	Current Reporting Period minus 3 years	Current Reporting Period minus 4 years	Current Reporting Period minus 5 years
	4/1/2014 to 3/31/2015	/ to /	/ to /	/ to /	/ to /	/ to /
A. Secondary Effects (MtCO ₂ e)	-11,302					
B. *Confidence Deduction (%) ☐ Defer	NA					
C. *Forest Buffer Account Contribution (MtCO ₂ e) ☐ Defer	NA					
D. For Avoided Conversion Projects ONLY: What is the Project's uncertainty discount factor?					%	☒ N/A

PART XI. TOTAL NET GHG REDUCTIONS AND GHG REMOVAL ENHANCEMENTS (QR_y)

In the appropriate column below, enter the total net GHG Reductions and GHG Removal Enhancements (MtCO₂e) for the current Reporting Period and all Reporting Periods since the Project's last full verification.

For verification years ONLY: Report the total net GHG Reductions and GHG Removal Enhancements for every year since the Project's last verification.

Current Reporting Period	Current Reporting Period minus 1 year	Current Reporting Period minus 2 years	Current Reporting Period minus 3 years	Current Reporting Period minus 4 years	Current Reporting Period minus 5 years
	/ to /	/ to /	/ to /	/ to /	/ to /
-585,561					

PART XII. ATTESTATION AND OPO/APD SIGNATURE

I certify under penalty of perjury under the laws of the State of California the GHG reductions and/or GHG removal enhancements for

Project Name:

Trinity Timberlands University Hill Improved Forest Management Project

from Reporting Period Start Date:
9/19/2014

to Reporting Period End Date:
9/18/2015

are measured in accordance with the Compliance Offset Protocol

Check the appropriate Compliance Offset Protocol:

- ☒ **U.S. Forest Projects, October 20, 2011,**
☐ **U.S. Forest Projects, November 14, 2014,**

and all information required to be submitted to ARB is true, accurate, and complete.

In signing this form, I certify under penalty of perjury of the laws of California that the information contained in this form is true, accurate, and complete. I further certify that I am duly authorized to represent and legally bind the Offset Project Operator (OPO) on all matters related to this form.

SIGNATURE:

PRINTED NAME:

Brian Shillinglaw

TITLE:

Director, Investments and Operations

Background for U.S. Forest Offset Project Data Report Annual Reporting Period – All Project Types

Section 95976(d) of the Cap-and-Trade Regulation specifies reporting requirements for offset projects participating in the Compliance Offset Program. Offset Project Operators (OPO) or Authorized Project Designees (APD) are required to submit an Offset Project Data Report (OPDR) within four months of the end of each (annual) Reporting Period. This form is designed to help OPOs and APDs provide all the information required for offset projects using both the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 and the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. This information is submitted to the approved Offset Project Registry that is listing the offset project and should also be provided to the ARB-accredited verification body that will be verifying the Offset Project Data Report.

Items marked as eligible for deferment by Reforestation Projects may be deferred by Reforestation Projects as qualified in section 6.1.1 of the U.S. Forest protocol until submitting the Offset Project Data Report that will undergo the second verification. If deferring, check the "defer" box and leave the remaining fields blank.

Where to Submit Information Contained in This Form

Please complete the information on the form using your computer. Then either add an electronic signature to the form or print, sign, and scan the form. The completed and signed information and all supporting documentation should be emailed to the appropriate Offset Project Registry.

This form is available from the ARB website at:

<http://www.arb.ca.gov/cc/capandtrade/offsets/forms/forms.htm>

Detailed Instructions for U.S. Forest Offset Project Data Report Annual Reporting Period – All Project Types

This form is protected with restricted editing to facilitate completing the form. If the applicant wishes to unprotect the form, the password is "form".

Part I. Entity Submitting Report:

- Indicate whether the Offset Project Operator (OPO) or Authorized Project Designee (APD) is submitting this information.
- The person providing this information should indicate the date the report is completed.
- List the name, phone, and email of the person completing this report. This person should be an employee of the OPO or APD, whichever entity is submitting this information. The person submitting the information need not be the same person as the contact person listed for the OPO or APD in Part III and also need not be the person signing the attestations in Part XII.

Part II. Offset Project Information:

- Provide the name for the offset project and its Offset Project Registry ID number, as provided by the Offset Project Registry listing the project. Also include the ARB project ID number, if known.
- Indicate the Offset Project Commencement Date and the start and end date of the Reporting Period covered by this Offset Project Data Report. Supply date of last verification.
- Indicate the version of the compliance offset protocol under which the project is listed. Also indicate the version under which the project is reporting. A project may report under the version which it is listed or may transition to a subsequent version. A project may transition only at the time of submitting the initial Offset Project Data Report to the Offset Project Registry (see section 95973(a)(2)(D)).
- Indicate whether this Offset Project Data Report is being submitted for a verification year.
- Indicate if this OPDR is being submitted in the Initial Reporting Period. If yes, then the OPO/APD must also complete the appropriate U.S. Forest OPDR Initial Reporting Period Form in addition to this Annual Reporting Form. Indicate which of the Initial Reporting Period Forms is attached to this OPDR. These forms can be found at: <http://www.arb.ca.gov/cc/capandtrade/offsets/forms/forms.htm>

Part III. OPO/APD Information:

- Provide contact information for the Offset Project Operator (OPO) and Authorized Project Designee (APD) for the offset project. Every project will have an OPO. If a project does not have an APD, please mark the box indicating the project does not have an APD and leave the remaining fields blank.
- For both the OPO and, if applicable, the APD, enter the entity's name, its mailing address, and the name, phone number, and email address of a contact person for the entity. Also include its CITSS ID number. The CITSS ID is six characters in length, with two letters followed by four numbers (e.g., "CA1234"). **DO**

**Submit the information in this form to
the appropriate Offset Project Registry**

NOT PROVIDE THE CONFIDENTIAL CITSS ACCOUNT NUMBER, which begins with the CITSS ID number followed by a hyphen and more numbers.

Part IV. Offset Project Eligibility Requirements

- A. Identify whether the project and associated lands are in compliance with all local, state and federal regulatory requirements for this reporting period. In particular, identify any non-conformance with regard to growth and harvest legal requirements that affect the project area's compliance. If there is a non-compliance within the Project Area, the OPO/APD must identify the non-compliance and provide a description and explanation.
- B. Respond to questions 1-4 to indicate how the project meets the definition of Natural Forest Management. Refer to Section 3.8.2 and Table 3.2 for more information. Responses are required for all projects. Questions pertain to Native Species, Composition of Native Species, Distribution of Age Classes, Sustainable Management, and Structural Elements.
- C. Indicate if there has been a decrease of onsite standing live carbon stocks over a 10-year consecutive period. If so, the OPO/APD must submit the appropriate supporting documentation required in Section 3.8.3 of the U.S. Forest protocol demonstrating that the decrease meets one of three exceptions listed in Protocol.

Part V. Project Changes

- A. Indicate if all the information in the Project Listing Form is still accurate. For information not still accurate, provide the updated information or describe where the updated information is otherwise included in the OPDR.
- B. Indicate if a Forest Owner has acquired new landholdings and describe how the new landholdings meet the requirements of the Compliance Offset Protocol.
- C. Indicate if a Qualified Conservation Easement has been recorded since the previous Reporting Period and submit a copy of the QCE as an attachment to this report. Any changes to the legal constraints affecting the forest offset Project Area or management therein must be described in an attachment. Refer to sections 3.1, 6.1.1, 6.2.1, and 6.3.1 of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in 6.2.1 and 6.3.1 between the two versions.)
- D. Indicate if there has been any modification to the inventory methodology of any carbon pools included in the project's boundary since the last Reporting Period. If yes, then describe any modification. If the OPO/APD has a qualified Reforestation Project that is deferring due to lack of inventory, check "defer." For more detailed requirements, refer to Appendix A.3 of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in Appendix A.3 between the two versions.)

Part VI. Reversals

- A. Indicate if any GHG reductions or GHG removal enhancements that have been issued credits during any prior year have been reversed. If the project's GHG reductions or removal enhancements are negative, regardless of cause of the decrease, these must be reported. Indicate whether it is an intentional or unintentional reversal. This includes planned thinning or harvesting activities if they result in a negative value as specified in the Protocol. Refer to section 7 of the U.S. Forest protocol. If there has been a reversal include the dates the reversal occurred, MtCO₂e reversed, and the current status of the compensation of the reversal. Refer to Section 95983 of the Cap-and-Trade Regulation for information on compensating for reversals.
- B. If the Project is undergoing verification, indicate whether a reversal has occurred during the previous six years unless this OPDR is part of an Initial Reporting Period. All projects must report reversals that occurred since the previous verification. Projects submitting an Annual Offset Project Data Report must report any reversals and provide a written description and explanation of the reversal, including whether it is intentional or unintentional and the status of compensation for the reversal. If there has been a reversal include the dates the reversal occurred, MtCO₂e reversed, and the current status of the compensation of the reversal. Refer to Section 95983 of the Cap-and-Trade Regulation for information on compensating for reversals.
- C. Indicate the project's reversal risk rating following the requirements of Appendix D of the U.S. Forest protocol. The reversal risk rating must be determined prior to listing and recalculated every year the project undergoes verification. Also indicate the project's fire risk based on the level of fuel treatments, as required in Appendix D.

Part VII. Harvest Volumes and Carbon in Wood Products

- A. Estimate the harvest volume in pounds of biomass with zero moisture content following the steps in Appendix C, Section C.1 of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or

the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in Appendix C.1 between the two versions.)

- B. Report the mill efficiency identified in the project's Assessment Area from the Forest Offset Protocol Resources on the ARB website: <http://www.arb.ca.gov/cc/capandtrade/protocols/usforestprojects.htm>
- C. Report the metric tons of carbon in the harvested wood products following the quantification methodology in Appendix C of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in Appendix C.1 between the two versions.)

Part VIII. Carbon Stocks:

- Reforestation Projects may defer full inventory of carbon stocks not affected by site preparation until second verification. If deferring, carbon stocks affected by site preparation must still be reported. Refer to section 6.1.1 of the U.S. Forest protocol.
- Write the name and Sources, Sinks, and Reservoirs (Column "SSR") and the associated identification number found in Tables 5.1-5.3 of the U.S. Forest protocol for the appropriate project type for each included carbon pool. Write the name and SSR for all required pools even if deferring the submission of data.
- Enter the current Reporting Period estimate of the identified carbon pool (MtCO₂e) in the second column. Follow the method in Appendix A, Sections A.2 and A.3 of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in Sections A.2 and A.3 between the two versions.) Check "defer" in the space provided if deferring the submission of data.
- If submitting the Offset Project Data Report for a verification year, carbon stock estimates for every year since the last verification must be provided in the remaining columns.

Part IX. Baseline Carbon Stocks:

- Reforestation Projects may defer estimating baseline carbon stocks not affected by site preparation until a full inventory is conducted. If deferring, baseline estimates of carbon stock affected by site preparation must still be reported. Refer to section 6.1.1 of the U.S. Forest protocol.
- Write the name and/or identifier of each required carbon pool in the first column. Refer to Section 5 of the U.S. Forest protocol. Please list the carbon pools in the same order as in Part VIII. Write the name and/or identifier of all applicable pools even if deferring the submission of data.
- Enter the current Reporting Period baseline estimate of the identified carbon pool (MtCO₂e) in the second column. Follow the method in Section 6 and Appendix B of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in Section 6 and Appendix B between the two versions.) Check "defer" in the space provided if deferring the submission of data.
- If submitting the Offset Project Data Report for a verification year, carbon stock baseline estimates for every year since the last verification must be provided in the remaining columns.

Part X. Quantification Factors

- The current Reporting Period column is required for all submissions. If submitting the Offset Project Data Report for a verification year, values for every year since the last verification must be provided in the remaining columns.
- A. Estimate the project's secondary effects (MtCO₂e) including the appropriate secondary effect sources, sinks, and reservoirs required in Section 5 and following the quantification methodology in Section 6 of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in Section 6 between the two versions.)
- B. Determine the confidence deduction (percentage) following Appendix A.4 of the U.S. Forest protocol.
- C. Estimate the buffer account contribution (MtCO₂e) based upon application of the forest offset project's Reversal Risk Rating to the total net GHG Reductions and GHG Removal Enhancements.
- D. Report the calculated uncertainty discount factor (percentage) as determined following the requirements of Section 6.3 of either the Compliance Offset Protocol U.S. Forest Projects, October 20, 2011 or the Compliance Offset Protocol U.S. Forest Projects, November 14, 2014. (There are some differences in Section 6.3 between the two versions.) Projects other than Avoided Conversion should check the "N/A" box.

Part XI. Total Net GHG Reductions and GHG Removal Enhancements (QRy):

- Determine the total net GHG reductions and GHG removal enhancements (MtCO₂e) following Equation 6.1 in the U.S. Forest protocol.

- Current Reporting Period column is required for all submissions. If submitting the Offset Project Data Report for a verification year, the total net GHG Reductions and GHG removal enhancements for every year since the last verification must be provided in the remaining columns.

Part XII. Attestation and OPO/APD Signature:

- Section 95975(d)(5) of the Cap-and-Trade Regulation requires an attestation for Offset Project Data Reports. The attestation should be initialed by the person signing the form.
- The attestation requires the applicant to provide some information to complete the statement. The offset project name and Reporting Period start and end dates should match the information provided in Part II. Also indicate the protocol version under which this project is reporting. This may differ from the version under which the protocol is listed.
- Amendments adopted in April 2014 to section 95976(d)(6) require the attestation "be provided to an Offset Project Registry with the Offset Project Data Report if the offset project is listed with an Offset Project Registry."
- The individual signing the document must be registered in CITSS as the OPO's Primary Account Representative or Alternate Account Representative. The individual signing the document may be an APD employee and/or representative; but to sign the document, the individual must be an Account Representative on the OPO's CITSS account.
- Please provide the individual's signature, printed name, corporate title, and date signed.
